Involving specialists

5.48 Where a child continues to make less than expected progress, despite evidence-based support and interventions that are matched to the child’s area of need, practitioners should consider involving appropriate specialists, for example, health visitors, speech and language therapists, Portage workers, educational psychologists or specialist teachers, who may be able to identify effective strategies, equipment, programmes or other interventions to enable the child to make progress towards the desired learning and development outcomes. The decision to involve specialists should be taken with the child’s parents.
