Requesting an Education, Health and Care needs assessment

5.49 Where, despite the setting having taken relevant and purposeful action to identify, assess and meet the special educational needs of the child, the child has not made expected progress, the setting should consider requesting an Education, Health and Care needs assessment (see Chapter 9, Education, Health and Care needs assessments and plans).

Relevant legislation: Section 36 of the Children and Families Act 2014

9.8 The following people have a specific right to ask a local authority to conduct an education, health and care needs assessment for a child or young person aged between 0 and 25:

- the child’s parent
- a young person over the age of 16 but under the age of 25, and
- a person acting on behalf of a school or post-16 institution (this should ideally be with the knowledge and agreement of the parent or young person where possible)

9.9 In addition, anyone else can bring a child or young person who has (or may have) SEN to the attention of the local authority, particularly where they think an EHC needs assessment may be necessary. This could include, for example, foster carers, health and social care professionals, early years practitioners, youth offending teams or probation services, those responsible for education in custody, school or college staff or a family friend. Bringing a child or young person to the attention of the local authority will be undertaken on an individual basis where there are specific concerns. This should be done with the knowledge and, where possible, agreement of the child’s parent or the young person.
